## Instructions for Contributors

Each manuscript should be organized in the following order: title page, abstract, text, acknowledgement, notes, references, and captions for figures and tables. The title page consists of the title of the paper, the full name(s) and the institutional affiliation of the author(s). Two copies of the manuscript and its floppy disk (MS-DOS), inclusive of tables and figures, should be submitted. The Institute will be responsible for determining the acceptability of a paper. Manuscripts will not normally be returned.

3. Notes should be numbered as a following example:  
At this date, the level of urbanization<sup>2</sup> can be estimated at 12.3 per cent.
4. References should be cited in the text by giving the surname of the author(s) with the year of publication as following examples:  
This is due to the fact that the process of economic development and modernization began first in the less urbanised countries (Bairoch, 1985, Chap. 16);  
Muth (1969) shows that the income elasticity of demand for housing is greater than unity;  
Thus, 'the apparent trend to a large non-proletarian "middle-class" has resolved itself into the creation of a large proletariat in a new form' (Braverman, 1974, p. 355)  
The full list of references should be given alphabetically by the first author's family name, at the end of the manuscript. They should be written using the following examples.
